

## Acknowledgements

This is the seventeenth report published by NCEPOD and, as in previous years, could not have been achieved without the support and co-operation of a wide range of individuals and organisations.

Our particular thanks go to the following:

- The local reporters in each hospital who work tirelessly to ensure full participation by their organisation
- All those clinicians who contributed to the study by completing questionnaires
- The expert group members and advisors whose names are listed in 'Appendix 4 '
- The organisations who provide the funding to cover the cost of the Enquiry who are listed here:
